COMPANY PROFILE 2024

WHAT WE DO

We design and manufacture high quality, high performance Physical Infrastructure Solutions and Services for Data Centers, Smart Buildings and Enterprise LANs.

With our solutions, we can help you get the most out of your technology. We cover more than half of a data center's vital infrastructure. Whether you're adding more devices, increasing bandwidth, retrofitting, building a new facility, adding more demand to your network, or just optimizing your existing data center infrastructure, we have the right solution for your needs.

We help you Stay Connected!

Lifetime Warranty

Training and Certifications

As an integral component of Nitrotel University's commitment to delivering top-tier training and continuous education for our associates, we extend access to our sister company, Certitel, to serve the Spanish-speaking community.

We must highlight that Certitel, among its training courses, teaches the Nitrotel Certification course that allows those accredited to offer a lifetime guarantee on the installations with our products.

Certitel offers training and certifications in the areas of Structured Cabling and Fiber Optics, both in online and in-person formats. With a history of more than 14 years, Certitel has solid regional recognition, trainers of the highest level, the best Spanish-speaking manuals and first-class equipment. We invite you to learn more through its website.
